

cMe2

cMe2

Zooming day and night?

Candle-light may not
be the best solution
but the cMe2 is!

cMe2

- Crendenza or telescoping wall mount
- Diffusion and egg crate
- On/off switch and dimming control knob
- High-quality, high-color rendering LED
- Flattering light for video

Lighting for our new virtual reality

- Suddenly working from home on Zoom meetings all day—the cMe2 is the perfect solution for professional lighting that's safe and easy to use.
- Network anchors running critical broadcast from home—the cMe2 keeps you in the same quality of light as the studio.
- Need a remote diagnosis through tele-health virtual visits—the cMe2 shows your true coloring, making it easier for a doctor to properly interpret your vital signs.
- Teaching class remotely—keep students engaged with good color rendering and clear screen content.
