

PoE 7" Touchscreen

The TAB-7 is a POE tablet that can be fully customized to each room or space in accordance to its groups, scenes or actions. It can be dynamically set both in appearance and function and comes with a variety of enclosure options or can be custom fit into a wall setting.

Infinitely Customizable

The TAB-7 is powered off a POE network (IEEE802.3af or higher) and consumes < 7W in active mode. Its built in sleep mode saves energy when it is not being used. Rotation of the image can be done via software through any of its host gateways.

Buttons on the unit are attached to logic, events, actions or status levels from any device in the network or outside via the network, such as weather or air quality icons and can be enabled/disabled during specific times of the day as desired.

Application Examples

The image displays several UI panels for a lighting control system:

- SELECT GROUP:** A grid of 12 buttons for selecting different areas: OFFICE1, RECEPTION, PANTRY, OFFICE2, CONFERENCE, HUDDLE, OFFICE3, OPENAREA1, PENDANTS, OFFICE4, OPENAREA2, and CLOSET.
- MASTER SCENES:** Two buttons: ALL OFF (red) and ALL ON (green).
- GROUP LEVEL:** Controls for adjusting light levels, including up/down arrows, OFF, 50%, 30%, and 80%.
- SCENE CONTROL:** Buttons for SCENE 1, SCENE 2, SCENE 3, and SCENE 4.
- ZONE A/B:** Up/down arrow buttons for ZONE A and ZONE B.
- COLOR TUNABLE:** COOLER and WARMER buttons with up/down arrows.
- SCENES:** STANDARD, OFF, and CIRCADIAN DEMO buttons.
- PENDANT FIXTURES:** Up/down arrow buttons.
- COLORS:** CHOOSE A COLOR... button.
- GROUP CONTROL:** A list of buttons for GROUP 1, GROUP 4, GROUP 2, GROUP 5, and GROUP 3.
- DEFAULT SCENES:** ALL OFF, ALL 15, and ALL 30 buttons.
- ARED, AGREEN, ABLUE, AWARM, ACOOL:** A vertical stack of colored buttons.
- ALL_OFF, ALL_15, ALL_30, ALL_50, ALL_ON:** A vertical stack of scene selection buttons.
